

SUNY EMPIRE POINTS OF PRIDE

SUNY Empire serves and grants degrees to more military-affiliated students than any other SUNY institution.

We are one of the only universities to offer full transferability (up to 93 credits). More than half of our bachelor's degree-seeking students receive credits for prior learning, cutting time to completion and saving up to \$10,000.

We serve a higher percentage of adult learners than any other undergraduate institution in New York. 74% of our degree-seeking undergraduate students are over the age of 25 and nearly 66% work full time.

Our online courses are designed by expert faculty and instructional designers to be taught online with comprehensive, 24/7 online support.

We are the only designated autism supportive institution of higher education in New York, creating an inclusive academic experience for neurodivergent students.

Our Opportunity Programs serve students statewide at all stages of life and learning.

For nearly 30 years, SUNY Empire has ranked first in student satisfaction among peer SUNY institutions.

Our students broadly reflect the race and ethnic composition of the state and range in age from 15 to 88 years old.
